# WELCOME

**WELCOME TO** the Towcar Awards 2007. We've joined forces with our friends at What Car? and The Camping and Caravanning Club to create what we think is Britain's most rigorous towcar test programme.

To even reach the final stage of judging, each model needed the thumbs-up from the expert test team at What Car?. Only then did it go through to the week-long test marathon at MIRA's test track in Warwickshire.

The 50 finalists faced specially devised tests for stability, hill starts, acceleration and braking, while The Camping and Caravanning Club examined every aspect of a car's practicality for towing.

We think there's something for everyone among the cars tested, from surprising superminis to imperious off-roaders. Whether your budget is

£10,000 or £50,000, these awards will help you choose a towcar you can be proud of.
