

Boroughbridge Club Site short walk

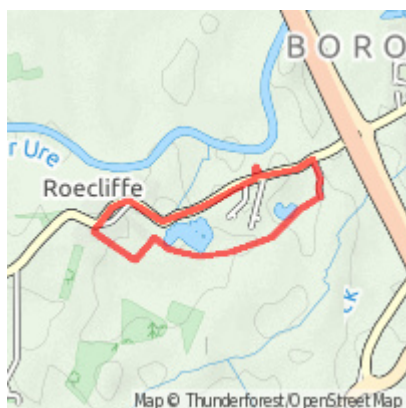

Route Summary

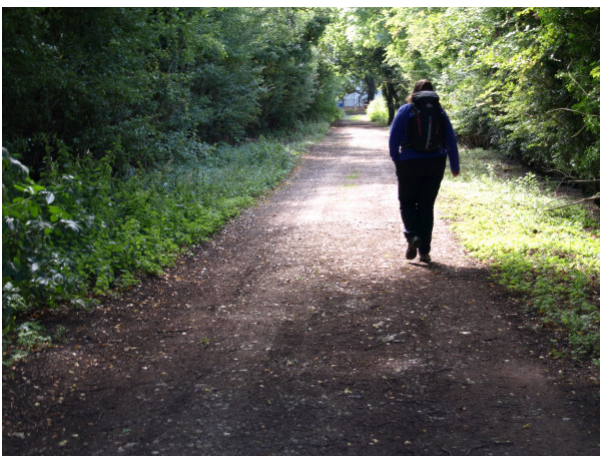

A short walking route from Boroughbridge Camping and Caravanning Club Site that makes use of hidden tracks and footpaths to make a nice and easy circuit to a lovely pub. After a drink or meal here a hike back down a lane brings you to the site again.

 Rating: Unrated
 Surface: Smooth
 Date Published: 13th October 2017
 Difficulty: Easy
 Length: 3.230 km / 2.02 mi
 Last Modified: 6th December 2017

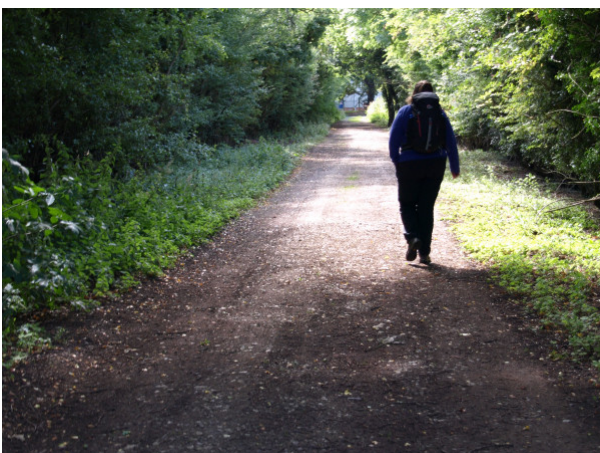

Description

TYPICAL WALKING ON THIS ROUTE

START - Exit Boroughbridge Club Site past the barrier to the road. Go left to walk past an industrial estate using the pavement. At Alexenders Car Showrooms cross the road to use the pavement on the opposite side.

2 - When you reach a cream-coloured house with a red-tiled roof, leave the road to go right and walk past a line of houses. Take the track beyond and when it goes sharply right and continue to the end of it at Roecliffe Ponds and Meadow.

WALKING ON THE TRACK

Continue on the good surfaced track through more open ground. Follow the track around to the left and follow a line of telegraph poles. At the end of the track take a narrower path through bushes to and go straight ahead at a track junction, taking a tree lined track until you reach another track junction near a garage.

OLD MORRIS NEAR TRACK JUNCTION

3 – Go left passing the entrance to Waincliffe House. Continue down the track and as it bends left leave it to go right over a bridge and stile to a field. Follow the right edge of the field towards houses and continue to a telegraph pole in the top corner of the field.

CROSSING THE FIELD

Cross a high stile to follow an enclosed footpath between conifer hedges. At the end of this go right at a track junction to reach another junction by The Crown Inn. Go right to reach the pub.

THE ENCLOSED PATH

4 - From the pub, go through Roecliffe on the main road to curve right passing the school. Continue to pick up a pavement as you leave the village. Follow the lane on the pavement to return to Boroughbridge Club Site.
